

### Description

The 267 adapters ("2 for 1" or "T" adapters) are designed to connect two telephones or associated equipment items to an existing modular jack. These adapters allow for quick connection of two devices at a single jack location without rewiring.

### Product Specifications

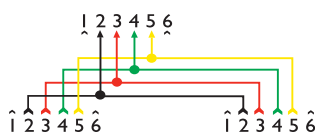

Materials	UL V-0 Thermoplastic
Contact pressure	>100 Grams
Insulation Resistance	>500 MΩ
Contact Resistance	<10 mΩ
Current/Voltage	140VDC at 2 Amps

### Features

- Modifies circuitry without rewiring
- Allows multiple connections from a single modular jack

### Product Information

#### Suttle

#### Part Number

#### Description

Suttle Part Number	Description
267A4	2 for 1 inline modular adapter, 4-conductor to 4/4-conductor
267A6	2 for 1 inline modular adapter, 4-conductor to 6/6-conductor
267B	Inline modular adapter, single 4-contact jack wired for termination of 2 lines
267C	Inline modular adapter, Voice labeled: PHONE, Data labeled: MODEM
267E	2 for 1 inline modular adapter, 6-conductor to 6/6-conductor

Color: (-50) Ivory
