Product Specifications:

(for Architects & Engineers)

The wall mount for the flat panel display shall be the Video Mount Products (VMP) model LCD-1. The mount shall be designed to attach to a single stud or other suitable support surface. The mount shall be constructed primarily of tubular steel and shall incorporate nylon filled nuts and arc welds. The mount shall be a universal style mount capable of mounting to all 10" - 23" flat panels that incorporate 75mm and 100mm VESA standard mounting hole patterns and not necessarily be model specific. The mount shall include a cable management system.

The mount shall be multi-configurable and capable of being assembled as a double arm articulating, single arm or near flush mount with parts provided. The mount must allow for adjustable tilt from -5° to +20°. The load capacity shall be 25 lbs.
